- Notes: 1. For fatherless family daily living support facilities, maternity homes and day-care centers for children, existing measures (administrative measures) were changed into implementation of fatherless family protection, implementation of maternity homes, and implementation of day-care centers for children (service agreement relationship based on public law) pursuant to the partial revision of the Child Welfare Law.
2. This includes the chiefs of towns and village which have welfare offices. In the case of a chief of a town or a village which has a welfare office, the payer for addition and other costs is the town or the village and the cost sharing ratio remains the same as of cities.
3. Day-care centers for children, and fatherless family daily living support facilities/maternity homes are excluded.
- 4 As for welfare facilities for the elderly, subsidy for protection cost of nursing homes for the elderly was abolished and tax revenue sources transferred in FY 2005. Therefore, all placement expenses have been shouldered by cities, towns and villages (including designated and core cities).
5. "Custodial care homes for people with physical disabilities" to the Law for the Welfare of People with Physical Disabilities prior to the revision, along with the prosecution of the Services and Supports for Persons with Disabilities Act, became "Social participation support facilities for people with physical disabilities" since October 2006
